GROUP ART UNIT 252

Art Unit 2502

The following is an Examiner's Statement of Reasons for Allowance: The rejection is under 35 U.S.C. 103 which requires that the combination of teachings made be obvious to one of ordinary skill in the art. The level of skill of such an artisan in the lighting supply area of art was not high enough to have found the combination in question obvious. The relationship required to have been taught of by the artisan is that the cable conductor equivalents taught by Spira et al would in fact include track conductors. This type of equivalence was taught by Galindo for low frequency application. One of ordinary skill in the art would not have understood that the equivalence taught by Galindo was applicable to a high frequency conductor system since known track systems were at line frequency and since track conductors do not resemble the cable conductors disclosed in Spira et al. The level of skill required to make the necessary mental connections was beyond them.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Exr. Mis at telephone number (703) 308-4907.
